**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1-4, 10-12 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by AU\_B1-26,024/77 published 14-12-78 or by Offenlegungsschrift 26 26 467 published 29-12-1977. The two references are equivalent to each other. General formula (I) of the German reference clearly anticipates claims 1-4, 10-12 and 14. When in claim I, structural formula IV of the instant application X is nitrogen and R6 is an alkyl other than methyl and R1-R4 and hydrogen then claims 1-4, 10-12, and 14 are anticipated. The references also teach the pharmaceutical composition and method for treatment neurological disorders.
